

## GrabDocs for Healthcare

---

### **Find Anything Instantly**

All patient information—medical records, PDFs, forms, images, test results, visit notes, and audio recordings—is stored securely in one searchable location. GrabDocs automatically categorizes every file (receipts, invoices, forms, documents) for instant retrieval.

Care coordinators share clear patient updates with specialists and referral partners. Staff can ask questions using Chat and instantly get exact information from all records.

### **Identify Clinical Trends and Patterns Over Time**

Analyze a patient's entire history across documents and visits to identify health trends. Track vital sign changes (blood pressure, heart rate, temperature)

Analyze treatment response patterns. Identify lab value patterns and trends.

### **Never Lose Meeting Knowledge**

Professional video meetings directly from the platform for patient consultations, team meetings, or care coordination calls. Automatic generation of clear, concise summaries of key points discussed.

Meeting recordings, transcripts, and summaries automatically indexed and searchable across your entire document library. Full searchable transcripts for documentation accuracy.

### **Better Care Coordination and Scheduling**

Full Google Calendar integration for seamless scheduling. Create patient appointments and schedule meetings directly from GrabDocs.

Use smart @ mentions to reference team members, workspaces, bookmarks, or documents. Attach patient documents directly to calendar entries.

### **Consolidate Multiple Systems and Improve Document Sharing**

Patient contact information and demographics. Visit notes and clinical documentation.

Create custom bookmarks that group related files and make them instantly searchable with. Lab results and diagnostic reports
